

Rosedale NY Financial Center Under New Management

ROSEDALE, NY — June 15, 2026 — As part of the growth of CFSC (Community Financial Service Centers), a previous money center located at 253-14 Rockaway Blvd, Rosedale, NY is now under new management. CFSC brings focus to customer service in addition to longer hours and more needed services to this already established community store. CFSC is committed to delivering convenient, customer-focused financial solutions to local communities, and are most happy to serve the Rosedale residents.

Open seven days a week, the new CFSC Rosedale branch provides residents and business owners with easy access to a wide range of essential financial services. Customers can take advantage of check cashing, money transfers, bill payment services, money orders, debit card solutions, and other everyday financial products—all supported by CFSC's trusted, personalized approach to customer service.

“What I love most when visiting our store locations is the interaction between the customers and our CFSC employees,” expressed Gina Palumbo, CFSC Chief Marketing Officer. “Our employees know their customers by name and customers know our employees as well; a sincere trust and level of comfort is evident and what really makes CFSC so loved in the communities we reside in.” Gina Palumbo proudly described.

Built to serve both individual consumers and commercial clients, the location offers fast, dependable financial solutions designed to simplify everyday transactions. Through CFSC's commercial services division, qualifying business customers can cash checks the same day, providing quick access to working capital and helping support day-to-day operations.

Many people today need quick and easy access to their money. CFSC locations provide instant access to payroll and government funds so customers can take care of their everyday essentials such as, purchasing groceries, paying bills, and sending money to loved ones on their schedule, not someone else's. In addition to these services, CFSC locations help customers easily 'get around town' with debit card services, foreign currency exchange, OMNY card purchases, and E-ZPass tags.

Customers visiting the new Rosedale location can easily apply for a CFSC exclusive Yes! Debit Card, which offers a range of excellent benefits. This desirable prepaid debit card works just like an online bank, but features no credit check, no minimum balance requirements, a free savings account, free reloads at any CFSC location and worldwide use wherever the Visa brand is accepted.

The new Rosedale location serves as a convenient one-stop destination for a variety of day-to-day financial and support services, as well as catering to small business owners' needs. CFSC

works with business owners to help them manage their cash flow more easily by cashing checks made payable to their business instantly. Smart business owners work with CFSC Commercial Specialists and do not wait days for checks to clear like at traditional banks. The CFSC Small Business Program allows businesses to focus on what matters to their business with same-day cash to help buy supplies, pay bills and simply run their business with less stress and more productivity.

With 72 locations throughout New York and New Jersey and 130 stores across nine states nationwide, CFSC continues to set itself apart from other money options while maintaining its focus on accessible, face-to-face customer service. Additional states include Illinois, Indiana, Wisconsin, Massachusetts, California, Colorado, and Missouri.

To celebrate the grand opening of their new Rosedale location, CFSC is offering a limited-time no-fee money order promotion, giving customers an opportunity to experience the convenience and value of CFSC's services firsthand.

About CFSC
